

2024 HUMMINBIRD PRODUCTS

OUT HERE, CLARITY IS KING.

Deeper water, bigger fish, higher stakes. Saltwater anglers trust Humminbird® to help track down trophy catches with the clearest view of where to strike. Use our marine charts to pinpoint where prized targets are lurking in nearshore or offshore areas. Then, zero in with flawless underwater imaging of fish and structure. Plus, when you pair our fish finders with a Minn Kota® trolling motor, you'll have the brains and brawn to dominate in deep water. It's why the best anglers agree: Humminbird is Simply. Clearly. Better.

WELCOME TO THE ONE-BOAT NETWORK.

Humminbird, Minn Kota and Cannon® share more than just a physical address. We share a passion for fishing and a mission to craft gear that lets you enjoy your time on the water even more. That's why we created the One-Boat Network®: a commitment to make the most advanced fishing gear even better, by making it work together. Our engineering teams constantly look for ways our products can seamlessly integrate and communicate, unlocking more features, capabilities and potential for anglers everywhere.

**ONE-BOAT
NETWORK®**

AUTOMATIC NAVIGATION

Focus on fishing, and let your Humminbird do the rest. From your fish finder, select a depth contour (or the shoreline) and activate Follow. Your motor will kick in, find the contour and automatically run your boat along it.

TROLLING MOTOR CONTROL

Mind over motor. Direct from your Humminbird unit, take command of your trolling motor to easily steer, engage Spot-Lock® and even stow or deploy a Riptide Instinct™ QUEST™ motor with a touch of the Humminbird display.

INSTANT ANCHORING

Hold it right there. Bluetooth®-compatible Humminbird models can communicate wirelessly with Minn Kota Talon and Raptor shallow water anchors to deploy, retract and adjust anchor settings.

PRECISION FISHING

Stay on target. Control up to four Cannon Optimum downriggers right from your Humminbird display and control downrigger operations and settings either together or individually.

SMARTPHONE CONTROL

Control your Humminbird and Minn Kota from a single screen. Download the One-Boat Network App for unprecedented command of your fishing boat and access to maps, digital remotes, software updates, customer service and more.

SELECTION GUIDE

For a complete look at the Humminbird lineup, this is your guide. If you'd prefer that we make a recommendation based on your specific fishing needs, scan the QR code and use our Fish Finder Selection tool.

WHAT TECHNOLOGIES ARE IN EACH MODEL?

The product name is your first clue to what technologies your Humminbird offers. Use the key below for help interpreting:

NETWORKING MODELS

All APEX™, SOLIX® and HELIX® G4N models support networking features.

SONAR TECHNOLOGIES

Each model includes the sonar listed in its name, plus the sonars listed below:

MEGA SI models include:

MEGA Side Imaging
MEGA Down Imaging
Dual Spectrum CHIRP

MEGA DI models include:

MEGA Down Imaging
Dual Spectrum CHIRP

CHIRP models include:

Dual Spectrum CHIRP

NAMING SYSTEM

MEGA LIVE IMAGING

MEGA SIDE IMAGING

MEGA DOWN IMAGING

MEGA 360 IMAGING

BRING FISH INTO FOCUS.

How well do you know the waters you fish? Not as well as you might think. From coast to coast, more anglers are finding fish they didn't know were there, thanks to the clarity of MEGA Imaging. Pioneered by Humminbird and it's built into APEX, SOLIX and select HELIX Series models. Using this high-frequency sonar, you can easily distinguish baitfish from gamefish, see the direction fish are facing and even target individual species. Choose MEGA Side Imaging for an incredible view to the left and right of your boat. Opt for MEGA Down Imaging for a crystal-clear picture below your boat. Put yourself at the center of the underwater scene with MEGA 360 Imaging, revealing every detail in every direction. Or, for must-watch detail and non-stop action, switch on MEGA Live Imaging and see a real-time view of what's below and around your boat. With MEGA Imaging, the options are endless, and if you're crafty enough, your fishing streak can be, too.

HUMMINBIRD

MEGA IMAGING

SCAN TO SEE
MEGA LIVE
IN ACTION

MEGA LIVE IMAGING®

It's showtime. MEGA Live Imaging delivers the clarity of MEGA Imaging in live action, allowing you to see fish and the rest of the underwater world in incredible detail, even watching fish as they move in to bite your lure. MEGA Live Imaging views are provided by an accessory transducer that is compatible with all APEX, SOLIX and select HELIX models.

COMPATIBLE MODELS

» APEX (all models) | SOLIX (all models) | HELIX 7-15 G4N (MEGA Imaging models) | HELIX 8-12 G3N (MEGA Imaging models)

Edge-to-Edge
MEGA Imaging Clarity

OPTIMAL BEAM WIDTH
to Maximize Fishability

DOWN MODE

Watch it all go down. This transducer angle is ideal for seeing detailed images of structure and fish swimming underneath your boat, allowing you to easily drop them a line.

FORWARD MODE

Now here's something to look forward to. Great for looking and casting out ahead and around your boat, making lure presentation more precise.

LANDSCAPE MODE

Keep a sharp lookout. Perfect for gathering intel in shallow water, this transducer angle makes full use of your widescreen display to show you what's ahead of your boat in clear detail.

MEGA 360 IMAGING®

Surround yourself with more detail than ever before. MEGA 360 Imaging sweeps up to 125 feet in every direction around your boat to deliver the clearest images you've ever seen of structure, the bottom and fish, even while you're sitting still. That means more accurate casts, more unforgettable moments and more incredible MEGA Imaging—all around.

COMPATIBLE MODELS

- » APEX (all models) | SOLIX (G2/G3 models)
- HELIX 8-15 G4N (MEGA Imaging+ models)
- HELIX 8-12 G3N (MEGA Imaging+ models)

An optional accessory available for select models, the MEGA 360 Imaging transducer beam reveals a circular area with a radius of 125 feet.

SCAN TO SEE VIDEO

MEGA SIDE IMAGING®

Humminbird Side Imaging uses an ultra-thin beam to take a "sonar snapshot" of the area to the left and right of your location. The return image for this slice is then added to the images taken immediately before and after to build an incredibly detailed view of the bottom. The dark, center portion of the screen represents the column of water below your boat. The lighter portions on the far left and right of the screen show you the bottom below and to the left and right of your boat. Keep in mind, Side Imaging is a record of the water and terrain your boat has already passed over. Structure will appear as a clearly defined bright shape with an adjacent dark sonar "shadow." Generally, long shadows indicate the object is tall and small shadows indicate something short.

COMPATIBLE MODELS

- » APEX (MEGA Imaging+ models) | SOLIX G2/G3 (MEGA Imaging+ models)
- HELIX 8-15 G4N (MEGA Imaging+ models) | HELIX 7 G4/G4N (MEGA Imaging models)

With MEGA Side Imaging (available on select models), you'll be able to see clearly at least 200 feet on either side.

SCAN TO SEE VIDEO

MEGA DOWN IMAGING®

Like MEGA Side Imaging, Humminbird Down Imaging uses a razor-thin, high-frequency beam to create picture-like images of structure, vegetation and fish. But unlike MEGA Side Imaging, Down Imaging returns are oriented identically to traditional, down-looking sonar returns—with the most-recent information appearing on the right side of the screen.

COMPATIBLE MODELS

- » APEX (MEGA Imaging+ models) | SOLIX G2/G3 (MEGA Imaging+ models)
- HELIX 9-15 G4N (MEGA Imaging+ models)
- HELIX 7 G4/G4N and HELIX 8 G4N (MEGA Imaging models)

With MEGA Down Imaging (available on select models), you'll be able to see clearly at least 200 feet under your boat.

SCAN TO SEE VIDEO

HUMMINBIRD

DUAL SPECTRUM

BEGIN YOUR SEARCH WITH BETTER HARDWARE.

Don't let the pretty pictures fool you. Our proprietary, Low Q CHIRP transducer is the real hero. Using more coverage to detect fish, structure and the bottom, this workhorse makes possible the highly defined fish arches and clear target separation of Dual Spectrum CHIRP Sonar. Ounce for ounce, pulse for pulse, it's the best sonar in its class. No contest. Available on APEX, SOLIX and select HELIX models.

WIDE MODE Maximum Coverage

Search far and wide. Opt for Wide Mode when vertical jigging, in shallow water or when you just want to see a wider view of the world below.

NARROW MODE Maximum Detail

Hone in on the small stuff that makes a big difference. Narrow Mode lets you target individual fish, or separate fish from structure and the bottom with laser precision.

CHIRP

STRONG RETURNS WITHOUT NOISE

Stop seeing things that aren't there. A high signal-to-noise ratio translates to better defined targets, less clutter and greater certainty that what you're looking at on-screen is legit.

SUPERIOR TARGET SEPARATION

Separating fish from their habitat is the name of the game. And now, you'll be able to more easily tell the difference between bait and game fish, and nearby structure and vegetation.

CLEARLY DEFINED FISH ARCHES

We've got bad news for your arch nemesis. Large game fish will show up on your screen as long, well-defined arches, for quick identification and accurate lure presentation.

DUAL CHANNEL SONAR SUPPORT

It's our job to give you every possible advantage as an angler. For deep water, pelagic applications, Humminbird is proud to offer Dual Channel Sonar Support for Airmar® accessory transducers with the APEX Series, in addition to industry-leading MEGA Side Imaging+®, MEGA Down Imaging+® and Dual Spectrum CHIRP sonar standard. With even more performance from a dedicated sonar channel for up to 2kW, plus integrated transducer ID for fast and easy setup, you'll see pristine Airmar CHIRP returns on your APEX display at depths as much as 3,500 feet. Visit Airmar.com for more information.

APEX SERIES

CLARITY HAS REACHED A NEW PEAK.

Welcome to the top. The APEX Series delivers the clearest view of sonar and charts to hit saltwater. Know exactly what's under and around your boat, viewing fish, structure, surroundings and points of interest on the crystal-clear, full-HD screen. Add the power of advanced networking features like NMEA 2000®, dual Ethernet ports and the One-Boat Network to unlock even more fish-finding and boat-control capabilities. Built specifically for serious anglers, the APEX Series can help take your fishing success to the next level.

SEAMLESS FISHING

Rig your boat to give yourself the ultimate advantage on the water. The APEX Series provides advanced networking options you would expect, plus premium options like Dual Channel CHIRP Sonar, dual Ethernet ports, HDMI video input/outputs, HTML5 and CZONE® digital switching support. With the option to customize screen combinations and data readouts, you can take full advantage of your fully connected fishing machine.

LOOK SHARP

The slim-fit, full-HD Cross Touch® display of the APEX Series offers a crystal-clear view of what's below. And with multiple in-dash mounting options, its sleek design will look just as sharp on your helm. From sonar to navigation to vessel information, the full-HD screen brings every detail to life with eye-popping clarity, so you can find and catch more fish.

FISHING RUNS IN THE FAMILY.

Every moment on the water matters. Don't waste a second messing around with your fish finder. The HELIX Series puts you on fish faster with an easy-to-use interface. You'll have innovative technologies at your command with options including MEGA Imaging+, Dual Spectrum CHIRP, AutoChart Live, Ethernet, Bluetooth, Wi-Fi and NMEA 2000 connectivity. Pick your choice of screen size and choose from either the One-Boat Network-compatible HELIX G4N Series, or a standalone HELIX G4/G3 model.

All are ready to fish right out of the box, because at Humminbird, simplicity is in our DNA.

INDUSTRY-LEADING SONAR AND BUILT-IN GPS

See more of what you want with innovative sonar technologies like Dual Spectrum CHIRP (2D) sonar and available MEGA Imaging+. Built-in GPS and Humminbird Basemap will show you the way, with premium chart options from LakeMaster, CoastMaster and Navionics.

NETWORKING COMPATIBLE

HELIX G4N Series comes standard with Ethernet networking and Bluetooth, allowing connectivity with other Humminbird fish finders and One-Boat Network products.

QUICK AND INTUITIVE KEYPAD CONTROL

Master HELIX at the touch of a button. Access the preloaded views from the user-friendly menu system. Soft key controls allow you to reliably operate your fish finder in any condition.

HELIX SERIES | MEGA DI · CHIRP · GPS

Look out below. Starting with MEGA Down Imaging, these HELIX Series models offer a clearer view of what's underneath your boat, plus One-Boat Network compatibility and a strong mix of other sonar and mapping technologies. Select the screen size that best matches your needs.

HELIX 15 MEGA DI+ GPS G4N
HD 15.4" DISPLAY / 1280H X 800V
#411310-1CHO (CONTROL HEAD ONLY)

HELIX 12 MEGA DI+ GPS G4N
HD 12.1" DISPLAY / 1280H X 800V
#411440-1 | #411440-1CHO (CONTROL HEAD ONLY)

HELIX 10 MEGA DI+ GPS G4N
HD 10.1" DISPLAY / 1024H X 600V
#411410-1 | #411410-1CHO (CONTROL HEAD ONLY)

HELIX 9 MEGA DI+ GPS G4N
HD 9" DISPLAY / 1024H X 600V
#411370-1 | #411370-1CHO (CONTROL HEAD ONLY)

HELIX 7 MEGA DI GPS G4N
HD 7" DISPLAY / 1024H X 600V
#411640-1 | #411640-1CHO (CONTROL HEAD ONLY)

HELIX SERIES | CHIRP · GPS

If it's a better view you're after, start here. Offering the impressive detail of Dual Spectrum CHIRP Sonar, these HELIX Series models capture a solid mix of features to help you catch more fish. One-Boat Network compatibility gives you plenty of options.

HELIX 7 CHIRP GPS G4N
HD 7" DISPLAY / 1024H X 600V
#411630

TAKE IT WHERE THE FISH TAKE YOU

In addition to the HELIX 5 CHIRP GPS G3 Portable, Humminbird offers portable carrying case kits for HELIX 5 and HELIX 7 models. Portable model and kits include a soft-sided carrying case, suction-cup transducer, 9Ah battery and charger.

PTC U2 (shown)
PORTABLE CARRYING CASE KIT
#740157-1

PTC UNB 2 (no battery)
PORTABLE CARRYING CASE KIT
#740157-1NB

Navionics HotMaps Platinum | Navionics Platinum+

ONE-BOAT NETWORK APP COMPATIBLE

Update software, access technical support and unlock even more control. See details on page 47.

CHO MODELS (CONTROL HEAD ONLY)

Add a unit to an existing Humminbird network or pair it with a transducer of your choice. A CHO model gives you the freedom to choose from compatible transducers, including MEGA Live or MEGA 360 Imaging. Find the right one for you on pages 40-41.

HELIX S E R I E S

G4 + **G3** NON-NETWORKING

Sometimes, fishing is a sport best enjoyed solo. These standalone HELIX Series fish finders offer an impressive array of features, from MEGA Imaging to Dual Spectrum CHIRP sonar, to Humminbird LakeMaster compatibility. No matter the size of your crew or your boat, there's something here for everyone.

HELIX SERIES SI • DI • CHIRP • GPS

HELIX 7 MEGA SI GPS **G4**

Additional Model Options	APEX 19 MEGA SI+ CHO (Control Head Only) #411240-1CHO
Interface	Multi-Gesture Touchscreen + Keypad Control
Display Size & Pixel Matrix	18.5" Diagonal 1920H x 1080V
Bluetooth	Built-In
Wi-Fi	Built-In
Water Surface Temp	Built-In Transducer
Speed	GPS Speed Included
Waterproof Class	IPX7
Mounting Options	Gimbal, Front In-Dash or Optional Rear In-Dash
Transducer Included	XM 14 HW MSI T (Transom Mount)
Power Input	10.8-20 VDC
Power Draw	4.4 Amps

Additional Model Options	APEX 16 MEGA SI+ CHO (Control Head Only) #411500-1CHO
Interface	Multi-Gesture Touchscreen + Keypad Control
Display Size & Pixel Matrix	15.6" Diagonal 1920H x 1080V
Bluetooth	Built-In
Wi-Fi	Built-In
Water Surface Temp	Built-In Transducer
Speed	GPS Speed Included
Waterproof Class	IPX7
Mounting Options	Gimbal, Front In-Dash or Optional Rear In-Dash
Transducer Included	XM 14 HW MSI T (Transom Mount)
Power Input	10.8-20 VDC
Power Draw	4.3 Amps

Additional Model Options	APEX 13 MEGA SI+ CHO (Control Head Only) #411470-1CHO
Interface	Multi-Gesture Touchscreen + Keypad Control
Display Size & Pixel Matrix	13.3" Diagonal 1920H x 1080V
Bluetooth	Built-In
Wi-Fi	Built-In
Water Surface Temp	Built-In Transducer
Speed	GPS Speed Included
Waterproof Class	IPX7
Mounting Options	Gimbal, Front In-Dash or Optional Rear In-Dash
Transducer Included	XM 14 HW MSI T (Transom Mount)
Power Input	10.8-20 VDC
Power Draw	3.1 Amps

SONAR CAPABILITIES

Sonar Types - Standard	MEGA Side Imaging+ MEGA Down Imaging+™ Dual Spectrum CHIRP
Sonar - Coverage	20°, 42°, 60°, (2) 86° G (2) 55° @ -10dB (Total of 180°)
Sonar - Frequencies Supported	50/83/200/455/800 kHz & 1.2 MHz
2D CHIRP - Frequencies Supported	Full Mode (150-200 kHz) Narrow Mode (140-200 kHz) Wide Mode (180-240 kHz) Optional Deepwater (28-250 kHz)*
CHIRP Imaging - Frequencies Supported	455 kHz SI (405-505 kHz) 455 kHz DI (435-535 kHz) 800 kHz SI (780-840 kHz) 800 kHz DI (800-860 kHz) MEGA SI+ (1050-1175 kHz) MEGA DI+ (1100-1200 kHz)
Target Separation	2.5" (63.5 mm)
Power Output (Max)	Port 1 (2D CHIRP, MDI, MSI, 360) / 1000 Watts (RMS)* Port 2 (2D CHIRP) / 2000 Watts (RMS)*
Depth - Sonar	1200 ft (Standard Transducer) 3500 ft (Optional Transducer)
Range - Side Imaging (Side-To-Side)	800 ft (244 m) - 455 kHz 250 ft (76 m) - 800 kHz 500 ft (152 m) - MEGA+
Depth - Down Imaging	400 ft (122 m) - 455 kHz 125 ft (38 m) - 800 kHz 250 ft (76 m) - MEGA+

Sonar Types - Standard	MEGA Side Imaging+ MEGA Down Imaging+™ Dual Spectrum CHIRP

BUILT-IN CHARTS

HUMMINBIRD

CHARTS

READY TO FISH, RIGHT OUT OF THE BOX.

Only Humminbird delivers the detail, accuracy and innovative, one-of-a-kind features to eliminate unproductive water and find the best fishing spots faster. These powerful built-in maps will make the most of any day on the water. Search less. Fish more.

HUMMINBIRD BASEMAP

We've enhanced our standard Basemap to deliver more detail and a superior angling experience. The Humminbird Basemap is built into all APEX, SOLIX and GPS-equipped HELIX Series models. It uses data from Humminbird, NOAA, and other trusted cartography sources to provide a clear view of underwater structure and surrounding points of interest so you can fish and navigate with confidence. Identify buoys, daymarkers, hazards, marinas and countless other navigation aids and points of interest with our comprehensive icon system. You'll also see contours, depth markings and, for coastal areas, spot soundings. On the water, confidence is key. And the Humminbird Basemap delivers.

AUTOCHART LIVE

Build richly detailed maps of artificial reefs, wrecks and other favorite fishing spots in real time with Humminbird AutoChart Live, available on all APEX, SOLIX and GPS-equipped HELIX Series models. Map the water as you drive the boat, with eight hours of built-in recording time. Once your map has been created, view it with vegetation, bottom hardness and depth contours to locate the best fish-holding areas. Also, use it with Minn Kota Follow Mode and other patented Humminbird LakeMaster features. The future of digital charting has arrived. Better get on board.

OPTIONAL HIGH-DEFINITION CHARTS

HUMMINBIRD

COASTMASTER

THE COAST IS NOW ABSOLUTELY CLEAR.

Find the path to your next big catch with the incredible accuracy and detail of Humminbird CoastMaster. With VX Technology, easy-to-read contours and chart customization, you'll be able to identify the spots you know will hold fish and navigate there safely.

COMPATIBLE MODELS

- » APEX (all models)
- » SOLIX (all models)
- » HELIX (G3/G3N and newer)

AREAS

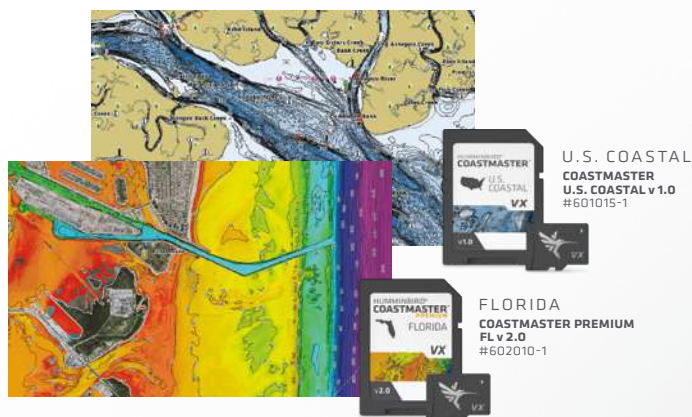

COASTMASTER®

Building on the latest data available, CoastMaster delivers unrivaled nearshore and offshore angling performance. You'll also have access to more fish-catching features thanks to compatibility with the One-Boat Network from Humminbird and Minn Kota.

COASTMASTER PREMIUM

Upgrade your navigational view with all the detail and features of CoastMaster, plus shaded relief, enhanced aerial imagery, bottom hardness and auxiliary contours. Now available in Florida and Northeast Premium editions.

VX TECHNOLOGY

Don't delay. Vector-accelerated technology provides five customizable color palettes and fast map load times, so you can seize every moment on the water.

HIGHLIGHT DEPTH

Select and highlight a particular depth range, so you can easily target productive water and stay in the bite zone.

WATER LEVEL OFFSET

Synchronize the depth contours and shorelines of your CoastMaster charts with the actual water levels, so your chart will reflect the current water level of your fishing spots.

DRYING AREAS

Quickly find areas that will dry out during low tide, highlighted in green on your CoastMaster chart, in order to better understand fish movement and identify your navigation route.

SHALLOW WATER HIGHLIGHT

Navigate safely and quickly identify spots where fish are hiding with red shading highlights for shallow water areas on an adjustable range from zero to 30 feet. Create up to four user-defined depth highlight ranges, so you can easily target productive water.

TIDES & CURRENTS

Whichever way the tide rolls, make sure it's in your favor. CoastMaster's predictive software allows you to plan your fishing day with tidal direction and height, as well as the speed and direction of currents and more, so you'll never be caught guessing.

CHART VIEWS

See the water your way with three view presets. Customize each desired preset and easily switch from Fishing, Navigation and User modes to show only the details you want and need on screen for your fishing preferences.

TRANSDUCERS

TRANSOM

Mount on the transom (back of the boat).

Available on many models, the impact release feature pivots transducer out of the way if struck by an object.

TROLLING MOTOR

Mount on most trolling motors.

Low-profile shape reduces drag and hang-ups on weeds.

IN-HULL

Mount to inside of most single-layer fiberglass hulls using slow-cure epoxy.

(Cored fiberglass, metal or wood hulls not acceptable. Hull must be free of trapped air and voids.)

PORTABLE

Mount on transom or side of most smooth-surface wood, aluminum or fiberglass boats.

Heavy-duty suction cup holds transducer at trolling speeds only.

STAINLESS STEEL THRU-HULL

Get MEGA Imaging+ (both Side Imaging and Down Imaging) as well as Dual Spectrum CHIRP 2D sonar from this heavy-duty thru-hull option.

BRONZE

Ideal for large boats and boats with in-board motors.

Not recommended for trailered boats. Professional installation recommended.

PLASTIC

Economic alternative to bronze transducer. Mounts on thinner hulls such as aluminum.

Not recommended for trailered boats. Professional installation recommended.

TRANSDUCER MOUNTING

TRANSMOUNT KIT

Mounting hardware for transom-mount transducers. Kits include all mounting brackets, hardware and cable clamps required for installation.

TROLLING MOTOR MOUNT KIT

Mounting hardware kit adapts our standard transom-mount transducers for use on the trolling motor. Kits include all mounting brackets, hardware and wire ties required for installation.

PORTABLE MOUNT KIT

For use with portable transducers. Includes all hardware and suction cup.

ICE MOUNT KIT

Transducer mounting hardware and float for XI 9 19 and XI 9 20 ice transducers.

KAYAK MOUNT KIT

Transducer mounting hardware for installation in a kayak. Kit includes surface-preparation products in addition to a transducer cradle and adhesive products.

TRANSDUCER CABLES

EXTENSION

10 FT AND 30 FT

Add extra length to standard transducer cables. Available in two lengths, cable plugs into existing transducer and your fish finder.

SPLITTER

DUAL BEAM

Continuously splits Side Imaging signal and Dual Beam signal. For use with a second transducer without a switch.

LEFT/RIGHT

Splits Side Imaging source signal into left and right output for two Side Imaging transducers.

STAINLESS STEEL THRU-HULL MEGA SIDE IMAGING TRANSDUCER

Reach greater depths with greater clarity. Built to withstand harsh saltwater conditions, this stainless steel thru-hull transducer delivers crisp returns for MEGA Side Imaging and MEGA Down Imaging, as well as Dual Spectrum CHIRP when connected with with a compatible Humminbird control unit.

Includes fairing block and mounting hardware.

Compatible Models

APEX (all models)
SOLIX MSI (G3/G2 models)

AIRMAR CHIRP TRANSDUCERS

Take advantage of the full capability of APEX, SOLIX and HELIX's CHIRP Digital Sonar with Airmar CHIRP transducers. Durable, precise and innovative, these industry-leading transducers are available through your dealer. For more information, talk to your dealer or visit AirmarTechnology.com.

MEGA LIVE IMAGING

Bring the must-watch detail and non-stop action of MEGA Live Imaging to a fish finder near you. MEGA Live is compatible with all APEX, SOLIX and select HELIX Series models. New mounting options give you added flexibility in how you attach and control the three-position MEGA Live transducer.

COMPATIBLE MODELS

- » APEX (all models)
- » SOLIX (all models)
- » HELIX 7-15 G4N models with MEGA Imaging
- » HELIX 8-12 G3N models with MEGA Imaging

CHIRP RADAR

Introducing the next generation of marine radar: CHIRP Radar, featuring CHIRP Pulse Compression. Setting a new standard for compact solid state radar, this technology delivers superior target separation on both long and extremely short ranges. This translates to better situational awareness in low-visibility conditions, and helps identify birds and floating obstacles for clues to where game fish are located. You can also track weather and vessels with amazing definition. Available for select Humminbird models with Ethernet-networking capabilities.

HB 2124 CHIRP RADAR
#750013-1

Some compatible Humminbird models require additional adapter, listed below.

Models	Cables Required
APEX and SOLIX Series	Built-in
HELIX G2N/G3N/G4N Series	AS EC QDE (#720074-1)

Clearly identify this upcoming bridge with the precise imaging of Humminbird CHIRP Radar.

SOLID STATE PERFORMANCE

Thanks to solid state technology, Humminbird radar is safe, reliable and lightweight. At 12.3 lbs, the radar unit weighs 50% less than traditional magnetron radars and offers safe emissions with a low power radar transmitter. It's also ready to use in seconds, without a lengthy warm-up period.

CHIRP PULSE COMPRESSION

Along with excellent short-range detection (18 foot minimum range), CHIRP Pulse Compression ensures more energy reaches each target for superior imaging at long ranges up to 24 nautical miles. CHIRP Pulse Compression identifies small or weak targets, even while positioned close to strong returns.

SUPERIOR RADAR IMAGING

See things more clearly with Humminbird CHIRP Radar. Shorelines, buoys, other boats and weather—watch it all take shape on your display for maximum safety and a competitive edge. Available for all networking models, advanced target separation displays targets with unsurpassed resolution and quality.

SPECIFICATIONS

Antenna Dimension	21" Enclosed Dome
Antenna Type	Patch Array
Peak Power Output	20W
Transmit Frequency	9354 to 9446 MHz
Beamwidth (nominal)	4.9° Horizontal and 20° Vertical
Input Voltage	12 or 24 VDC (Min: 10.8V, Max: 31.2V)
Networking	Ethernet
Max. Range Scale	1/16" to 24 nautical miles
Power Consumption	Transmit Mode 17W; Standby Mode 7W
Duplexer	Circulator
Pulse Widths (3dB)	40 ns to 14.7 µs
CHIRP Lengths	400 ns to 20 µs
CHIRP Bandwidth	Up to 32 MHz
IF Bandwidth	26 MHz
Noise	Less than 4dB
Polarization	Horizontal
Weight	5.6 kg (12.3 lb)
Waterproofing	IPX6

NMEA 2000

Boat performance, weather or water conditions—make sense of it all with NMEA 2000 networking on your Humminbird fish finder. Display and easily interpret virtually any NMEA 2000 sensor with intuitive, high-color graphics and text. You can even view data for multiple engines and fuel tanks. Easily customize data boxes to suit your needs. Focus on a single reading or view multiple gauges at once for a more complete picture. Plug your NMEA 2000 network cable directly into all APEX, SOLIX and HELIX G4N models.

MOUNTING HARDWARE AND COVERS

UNIT MOUNTS
Use for a second mounting location on your boat or as a great replacement for a worn original.

MOUNTING KNOBS
Use for gimbal bracket units.

IN-DASH MOUNTING KITS
Rugged in-dash mounting kits let you panel-mount your Humminbird for a fully integrated appearance. Includes all mounting hardware.

UNIT COVERS
Cover protects your Humminbird for storage. Hard plastic or neoprene covers depending on model.

ONE-BOAT NETWORK

MAKE YOUR SMARTPHONE THE BRAINS OF YOUR BOAT

Fish even smarter with One-Boat Network App. Tap into a full arsenal of mapping, control features and customer support from a single screen.

The app brings your Humminbird and Minn Kota devices together into one dashboard to give you unprecedented command of your fishing boat. Navigate with Humminbird's marine maps and then dial in with the app's digital remotes for select Minn Kota trolling motors and shallow water anchors. Take advantage of a One-Boat Network App subscription (\$24.99/year) to access exclusive mapping tools.

FREE FEATURES

CONTROL HUB

Navigate on the water, pick your fishing spot and control your Humminbird products and select Minn Kota devices — all from a single screen.

HUMMINBIRD BASEMAP

Detail your route. Plan your attack. VX BaseMap lets you customize your view, set waypoints and chart your course.

HELP CENTER

Dive deep into our knowledge base in just a few taps. Access product manuals, tutorial videos and FAQs through the Self-Help section.

SCHEDULE CALLBACKS

Raising the white flag? Request a callback from Minn Kota or Humminbird product experts in a couple of clicks.

APP

SUBSCRIBER FEATURES

VX TECHNOLOGY

Find prized fishing spots faster with exceptional marine map performance, precise contours and customizable color palettes.

AERIAL OVERLAYS

Find new fishing spots and navigate confidently with aerial maps to help you see beyond the shoreline.

DEPTH HIGHLIGHTS

Target hotspots and hazards with highlighting for depths and shallow-water areas synchronized with actual water levels.

2D-SHADED RELIEF

See the water your way with color-shading options to make bottom details and depth changes easier to spot.

Make your smartphone the ultimate fishing tool. Download the One-Boat Network App today.

» BOAT RIGGING GUIDES

Everything you want to know about networking your boat, in one place. Use our guides to rig your boat and configure it for seamless One-Boat Network functionality.
